

SAFETY RECALL NOTICE

2 November 2016

Dear Trek Consumer,

Thank you for your recent purchase of a Trek Farley. Our records indicate you purchased one of the following models:

- 2014 Farley
- 2014 Farley frameset
- 2015 Farley 6
- 2015 Farley 6 frameset

A small number of these bicycles were made with a fork that was assembled incorrectly. An incorrectly assembled fork could come out of alignment with the handlebar, which could allow the front wheel to turn unexpectedly and cause you to fall. If this happens, you could be involved in a serious accident.

Your safety is very important to us. Therefore, Trek will replace the fork on an affected bicycle, free of charge.

This letter contains important information regarding what to do next if you think you may have purchased one of these bicycles or framesets.
